

### **Announcing Office Move to New Location**

January 4, 2010

Dear Valued Patient,

We at the North Florida Center for Hearing and Balance are excited to inform you that on January 25, 2010 we will be moving to a new location. This new location will house both the North Florida Center for Otolaryngology where Dr. Taliaferro and Dr. Miller will practice, as well as the North Florida Center for Hearing and Balance where I will continue to practice. We have simply outgrown the space that we currently occupy in Flagler Hospital, and we are anxious to have a space that we can call our own.

Our new address will be 3 San Bartola Drive, Saint Augustine, FL 32086. This building is located directly across from the main entrance to the hospital. A map of the location is enclosed with this letter. We hope that you will find our office much easier to access as this office is ground level and we will have our own dedicated parking lot.

We look forward to welcoming you to our new home at your next visit. The phone numbers have stayed the same, so you may still reach the North Florida Center for Hearing and Balance at (904) 823-8823, or you may reach me directly at (904) 806-8884.

We hope to see you soon!

Sincerely,

Courtney Hill, Au.D.  
Doctor of Audiology
